Reason for Procedure

This procedure governs all international travel by Kirkwood employees engaging in an activity related to College business. This includes all international travel outside of United States borders representing Kirkwood for any reason, including professional conferences, professional development and/or any study abroad programs or for any other reason related to College business. All departments and student organizations must comply with the requirements for travel and the rules and regulations established by the Kirkwood Board of Trustees and the State of Iowa.

Kirkwood seeks to promote safe travel internationally by faculty and staff who are participating in or carrying out official College business. The procedure assists in being prepared to respond appropriately to emergency situations that may arise during international travel with or without accompanying students. Employees traveling with students will also have an understanding of the Student International Travel Procedure and enforce rules and regulations for students.

The Procedure

Approval Authority and International Programs Office:

All Kirkwood employees initiating travel abroad will consult with the International Programs office to ensure all transportation, visa, housing, insurance and all other appropriate arrangements have been made and are recorded and documented centrally in the International Programs office. All international travel must be approved by a Cabinet member and to be processed through the International Programs office. Prior to making travel arrangements, the traveler must ensure that their travel is supported and approved by their immediate supervisor. If approval and support by an immediate supervisor is not obtained, travel is subject to cancellation and could jeopardize monetary support from Kirkwood.

Travel to countries with US State Department Travel Advisories Levels 3-4 is strongly discouraged and requires submission of additional justification and documentation prior to approval by Cabinet and the International Programs Dean. This justification should be submitted along with the International Travel Application form. All US State Department Travel Advisory levels are posted at <https://travel.state.gov>. If a travel advisory is heightened or issued after the initial approval, the travel is subject to cancellation.

Procedures for Kirkwood Employees Travelling without Students:

1. Employees must obtain support from a Cabinet member and consult with International Programs about the travel arrangements (visa, travel warnings, etc.).
2. If the travel involves students travelling and/or the faculty/staff is interested in proposing a new study abroad program for students, they must follow the established processes and procedures of the International Programs office for that proposal.

The International Travel Application must be filed at the International Programs office a minimum of four weeks prior to departure and include a copy of current passport. 4. Upon receipt of the International Travel Application in International Programs, approved faculty and staff will be enrolled by International Programs in STEP – US Embassy Registration and Medical Evacuation and Repatriation Insurance.
